PERSONAL PROJECTS

Portfolio Website (07/2020 - 07/2020)
– We all know how important Portfolio is for an individual, So I created a website for the same the technologies used are Bootstrap-4, jQuery, HTML-5, CSS-3

Blog app (10/2020 - Pre07sent)
– Created a Blog app from scratch where the admin can post the blog post from the admin panel. one can ask the question to the admin with the contact form. Also, provided the facility for the viewers to add the comments to the blog and individually reply to the comments

Predict price of New York Airbnb (08/2020 - 08/2020)
– Airbnb is a popular real estate chain platform where we can put our property for lease to the others who want to live there for some time. Created a model which would predict the price for the same for different regions of the New York state.

Head to my Git-Hub for more projects
– Created many projects based on various technologies. or you can head on to shubhamj190.github.io

EDUCATION

Bachelor of Engineering(Computer Science)
Saraswati education society college of Engineering (Mumbai University)
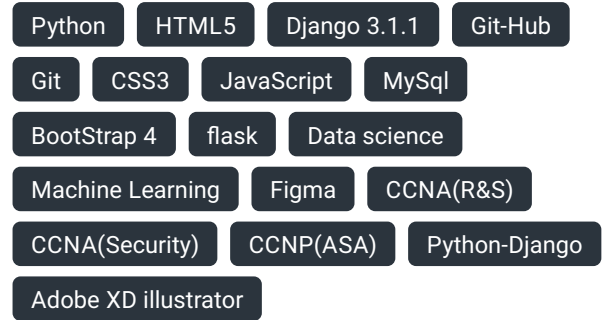

2014 - 2018   *Mumbai,India*
