PERSONAL PROJECTS

Predict price of New York Airbnb (08/2020 - 08/2020)

- Airbnb is an popular real estate chain platform where we can put our property for lease to the other who want to live there for sometime. Created a model which would predict the price for the same for different regions of the New York state.

India's COVID-19 trend (08/2020 - Present)

- Covid is a biggest crises we've ever seen till date. In this project I done analysis regarding what is the trend of the Covid in India and what help does 21 days of lockdown do from 21st march-april.

For more info on my personal project head on to my GitHub profile github.com/shubhamj190 📄
